AIR MEDICAL

THE TECHNOLOGY | BENEFITS

UV-C | Special UV-C system is housed within an enclosure where the active UV-C system is isolated from outside the system.

Medical & Home | **Ultraviolet Germicidal Irradiation** (UV-C) technology suitable for medical and commercial usage.

Bacteria & viruses | Dramatically **reduces airborne bacterium and viruses**, whilst consuming harmful ozone.

Infectious Agents | Significantly **reduces the spread** of airborne **infectious agents** such as flying mites and other irritants, etc.

Nine Element | **The Atmos-Clear AIR MEDICAL** contains a special nine element UV-C LED package, which produces anti-viral and anti-bacterial lightwaves, which can arrest certain organic matter.

Warranty | **The Atmos-Clear AIR MEDICAL** has a 1 year warranty.

Servicing | **The Atmos-Clear AIR MEDICAL** has very little regular servicing required other than periodic cleaning of the dust filters which simply “snap fit” into position.

The Ideal Sanitizing Device
for Passenger Transport, Public, Retail,
Personal and Medical Spaces

UV-C & MICRO ION

CLEAN AIR TECHNOLOGY | HOW IT WORKS

What makes this product unique within the market place is that it is a combination of UV-C and ION discharged all in one powerful yet small package!

Compact and powerful, yet only 3.93 inches x 3.93 inches by 4.10 inches tall, the **Atmos-Clear AIR MEDICAL** is capable of changing the air in an average room e.g. 20ft x 13ft x 8ft in approx 30 minutes or less.

Concurrent Elimination Process; there are two actions happening concurrently; **action 1;** as the air passes through the **Atmos-Clear AIR MEDICAL** the virus or bacterium are subjected to an intense dose of **UV-C** rays to sterilise them. **Action 2;** they pass through the IONISER section which ensures elimination of any harmful ozone.

It has been **scientifically proven that UV-C kills 99.9% of all viruses** and bacterium.
